

The **S. Maria Beltrade** parish school of Italian was established in 1990 when the first immigrants arrived in the area. Nowadays communities from different part of the world live in the neighborhood therefore the school aims at fulfilling the need of these fellow citizens to learn our language – their essential instrument for integration, everyday life, job searching – accompanying them in their first attempts and some insights.

All the teachers are volunteers and have different professional backgrounds but all of them have in common the same care and service spirit that has always been a feature of our school.

The school belongs to CLASSI APERTE network that gathers together all the schools of Italiano operating in Zona 2, between viale Monza and via Padova.

Classes (from A0 to A2 levels) are on the following days:

Evening classes –for everybody:

Morning classes –for women only:
